

What We Can Offer Your Organisation

The Core Offering

VendingNI will provide you with the vending machine of your choice:

- At no cost to you (we provide the machine for free).
- We keep the machine fully stocked for you via remote inventory management
- We maintain, repair and clean the machine for you.

A completely hands off and **free** vending solution for your organisation

Galaxy

Kellogg's

Reliable and cost-effective after sales services

Once your machine is installed, VendingNI will keep it fully stocked and fully operational via remote inventory management ensuring stock is always tracked.

Routine and scheduled cleaning will be carried out as well as swift repairs should any faults arise.

The stock can be customised to suit the needs of your users. For example, if your staff prefer a healthier range compared to the standard snacks and drinks selection, then the machine will be stocked in this way.

Vending Solutions

Shopping centres – Warehouses – Offices

Hotels – Industrial parks - Leisure centres

Hospitals – Schools

Increased employee productivity: An effective vending solution can save valuable minutes (and cumulatively hours) for employees, enabling them to quickly grab snacks and drinks and focus on work rather than going elsewhere.

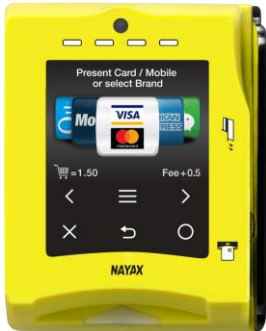

Increases customer satisfaction: A vending machine in, for example, a waiting room or reception allows customers to wait with a snack or drink in hand, improving their overall wellbeing,

The machine we provide you with will come installed with a card reader for cashless payments for maximum convenience.

We can source and stock your machine with your desired brands, not limited to a specific range, and optimise the stock based on usage.

Via telemetry technology, the status of your machine will be monitored 24/7 remotely, allowing any maintenance and faults to be swiftly dealt with on our end.

Routinely filling your vending machine

VendingNI will make sure that your vending machine is **always well stocked** with the right products that your customers/staff desire the most, including catering to any particular dietary requirements.

Stocking what sells using real time

Remote inventory management systems will monitor product sales and make sure that your machine is stocked with the most popular items. Based on the data, the product range and placement will be **monitored and optimised** to produce the most effective vending solution for your environment.

Example Solutions of what we can provide for you:

The BevMAX Cold Drinks Machine

The impressive BevMax 2 can hold a full range of bottles (both PET and glass) and cans in all popular shapes and sizes, with a total capacity of 495 drinks and 45 different selections. The machine is particularly quick and easy to load and maintain, making it extremely operator friendly.

The large, illuminated glass front of the BevMax 2 provides consumers with a clear, unobstructed view of all products available, allowing maximum impact. The motorised x-y delivery system collects and delivers the chosen vend with little or no agitation, before retracting out of sight in the door.

The Merchant 4/6

Merchant Six (*Model 981*) and Merchant Four (*Model 980*) Features:

Improve Consumer Experience

- New user interface—dynamic keypad based on appliance industry touch sensing technology (no moving parts), large lighted keys make it easy to use
- 1-2-3 process (money, selection, change) facilitates experience
- New “OK” key confirms selection and improves confidence
- Ergonomic coin cup
- Graphics display simplifies communication
- POP window for product promotions or company information
- Currenza Recycler option is the perfect match to capitalize on higher price points
